## New Zealand Certificate in Health and Wellbeing (Advanced Care and Support) (Level 4)

An **NZQA approved and accredited qualification** designed to equip you with advanced skills and leadership qualities, our online and workplace mode of learning will prepare you for a rewarding career in healthcare. Gain 200 hours of practical experience, learn from expert tutors, and work collaboratively within multi-disciplinary teams. You'll provide advanced relationship-centred and person-centred support, making a real difference in the lives of others. Whether you're looking to work in community health, aged care, or disability support, this programme opens doors to meaningful opportunities in New Zealand.

At Cavalli College we put our learners first - from the relevant content of our courses, to our simple online learning system, IT help, supportive tutor guidance and close liaison with your workplace. Get in touch to find out more about how Cavalli College can support you too.

### Programme highlights:

- Provide culturally safe, inclusive care.
- Support complex needs in collaboration with healthcare teams and whānau.
- Build communication and leadership skills.
- Develop workplace reporting and documentation skills.

### Career opportunities:

- Advance your skills and knowledge in the healthcare sector.
- Find employment as a caregiver, healthcare assistant, support worker, or progress to senior roles.
- Boost your earning potential and career progression.
